OpenSea's monthly USD sales volume

## Global Sales Volume

With monthly sales holding above US\$2.5 billion in recent months and reaching as high as **US\$4.5 billion** (data as of February 2022), the market for new NFTs will likely grow to at least US\$30 billion this year.

### How much is the NFT market worth 2022?

Overall, collectors have sent **over \$37 billion** to NFT marketplaces in 2022 as of May 1, putting them on pace to beat the total of \$40 billion sent in 2021. May 5, 2565 BE

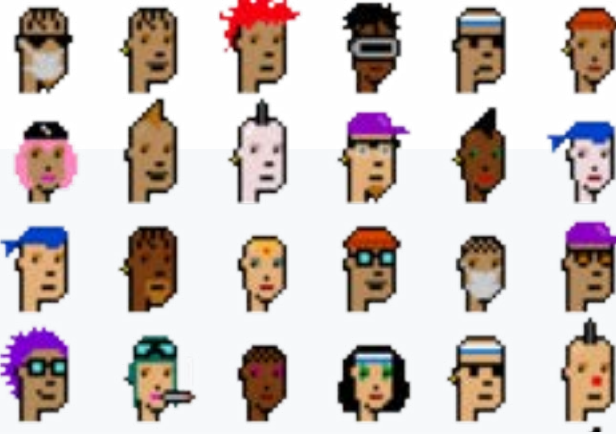

### How much is the NFT market cap?

As of March 31, 2022, the market cap of Art Blocks NFT projects available on the Ethereum blockchain and listed on OpenSea was worth roughly **840 million U.S. dollars**. Apr 5, 2565 BE

### How many NFT are sold per day?

The most current reports show that **3,200 NFTs are sold per day**. That said, the potential for fluctuations is high in this type of market. For those concerned with the power consumption of NFTs through the Ethereum blockchain, NFTs may not be something they want to invest in until this is resolved. Apr 7, 2565 BE

## Global NFT trading volume grows over 200% in 2022 surpassing \$50 billion

★★★★★

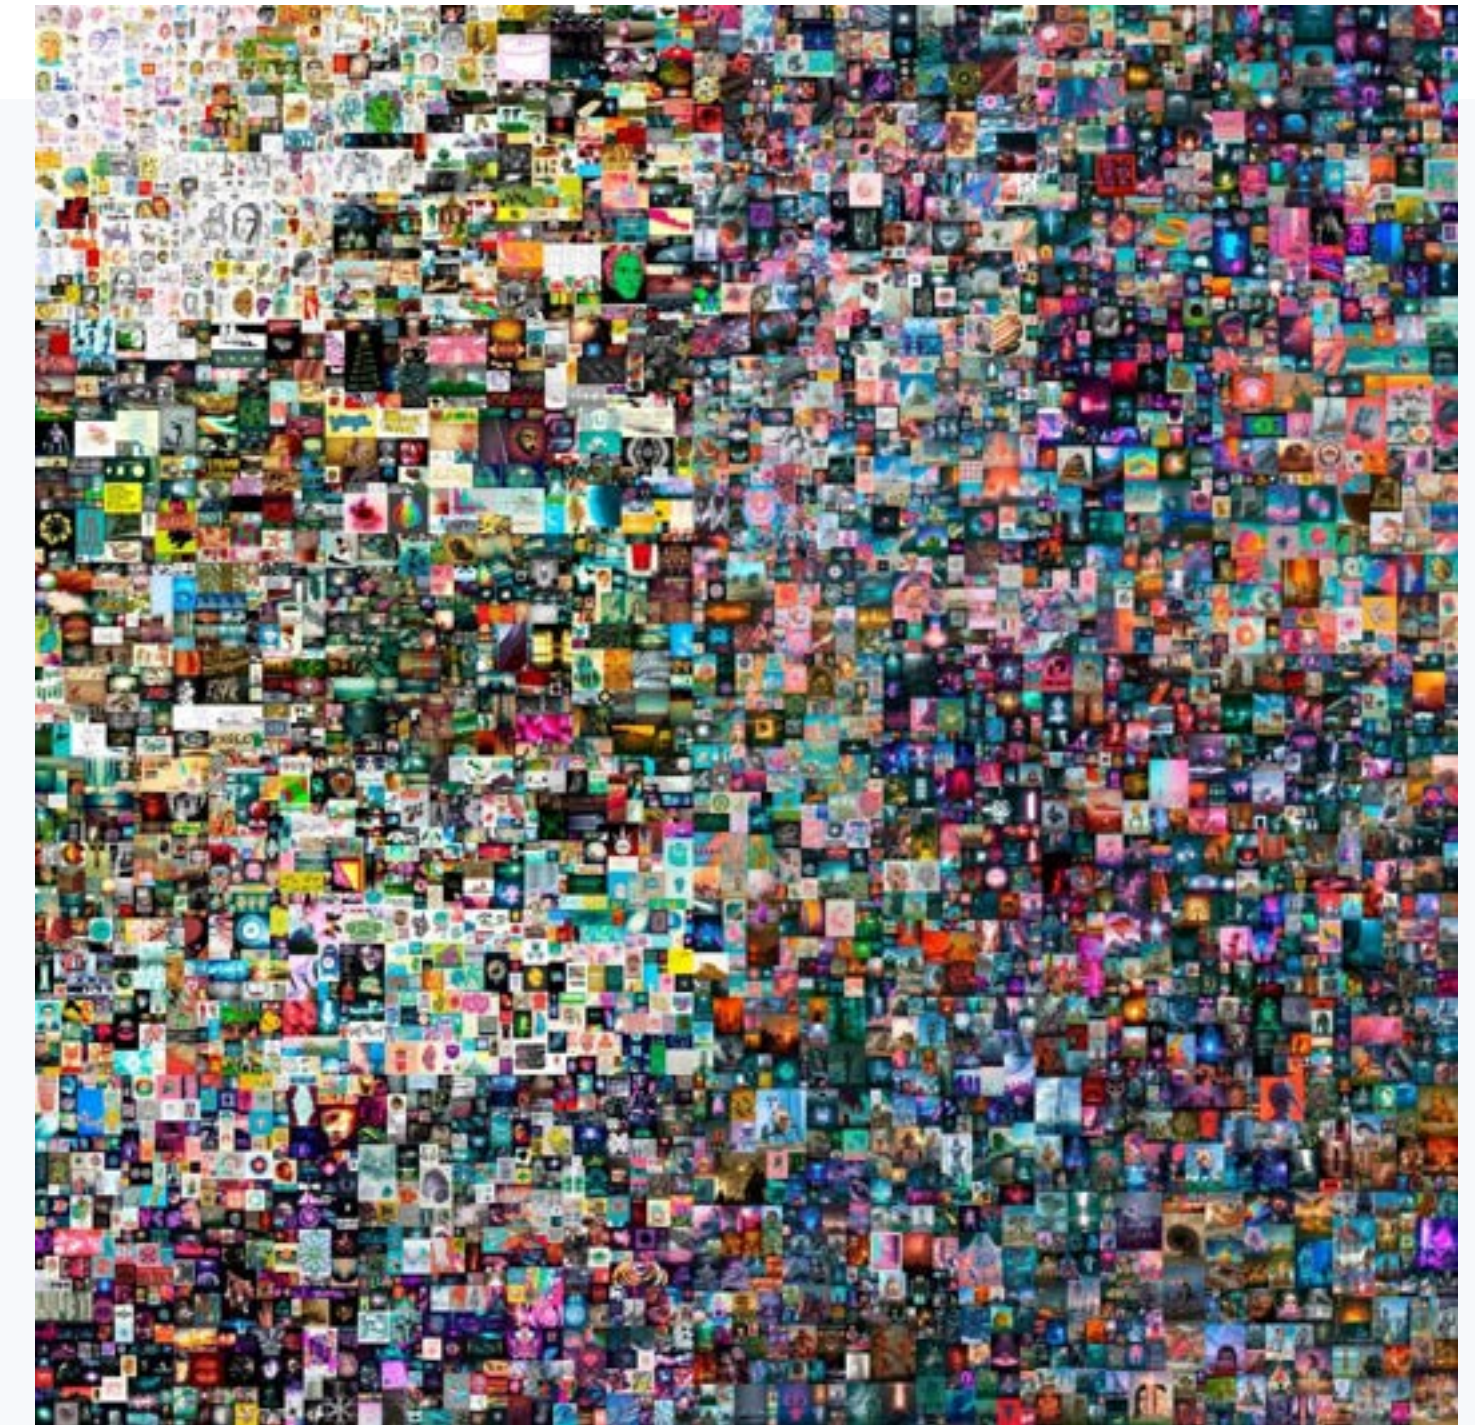

NFTs are awesome!

As already stated, this is the most popular category of NFTs out there. These are mainly digital artworks that come with a public certificate of authenticity and ownership issued by the digital ledger on which they are stored. The most expensive NFT sold is the digital artwork 'The First 5000 Days' by artist Beeple for a whopping \$69.3 million in March 2021 in a Christie's auction.
