What problem does your project solve?

# We are looking at How to Transform Physical Art into a Digital NFT
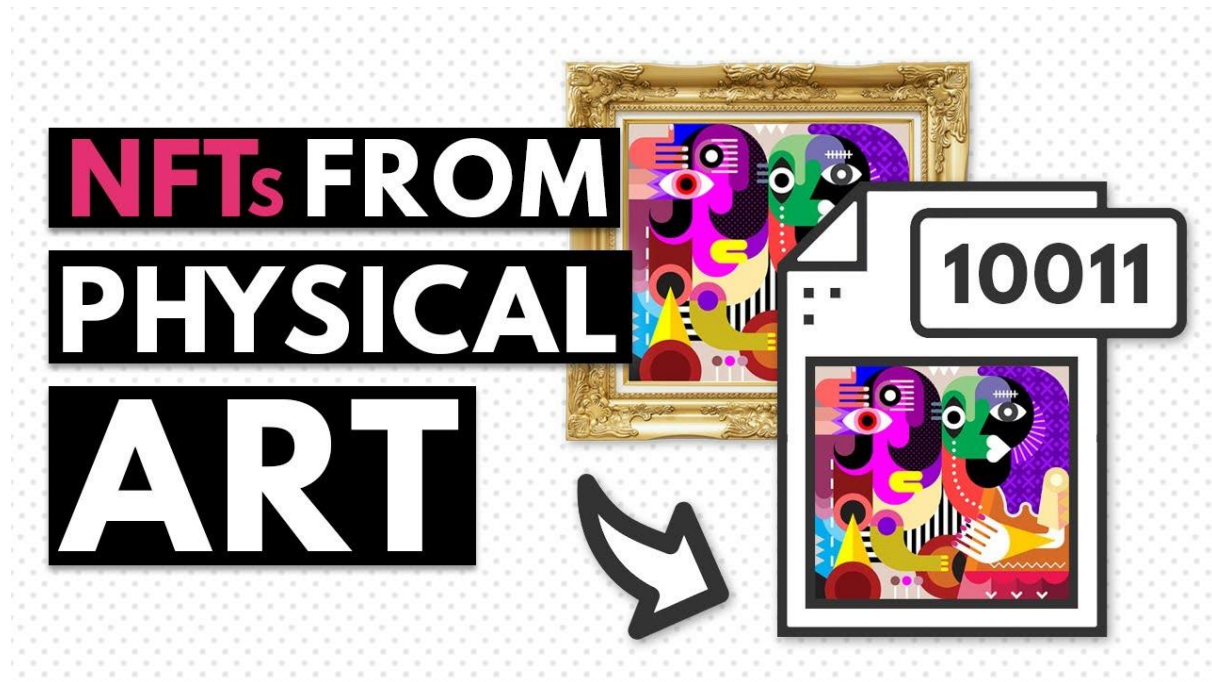

We are working on a system for transforming physical Art to Digital NFTs
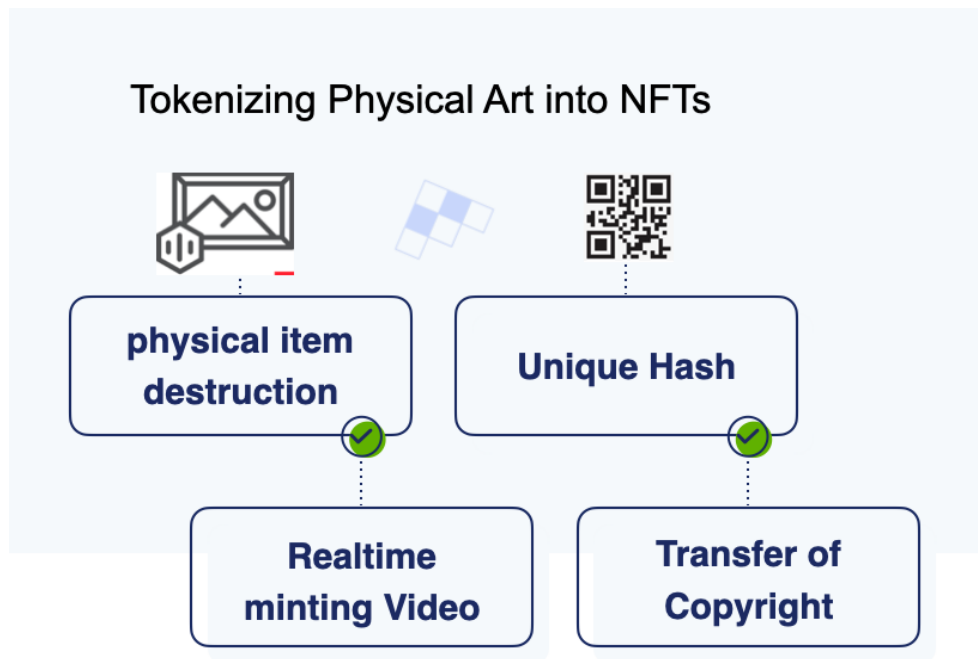

'**Draw-to-Earn**' – is a good method for Artists to develop a professional Career.

'**Proof-of-Destruction**' – after the image is digitised, the author Destroys the Physical Work.

'**Deal Sheet**' – copyrights, including commercial reproduction.

This project is for Physical Art Artists who want to sell their works as NFTs.

To test the hypothesis,
the Genesis-Artist was chosen

Gritskava Art

Super-Heroes team

CEO Alex [Vadim Alexeev]
https://www.linkedin.com/in/html5css3pro/

CFO	CTO	CBO	CCO	CBDO	CMO

- No have any Marketing Support

Lead dev.	SC-dev

- We need Smart-Contract dev.

JS-dev

- We need 1 more Frontend dev.

Roadmap

June

Gathering team, co-founders agreement, setting goals

July

Start of work. App development & Marketing campaign launch

Sep.

Prototype is ready for demonstration, the **1st round of investment**

Nov.

Beta version Launch for early users, Draw-to-Earn accounts announcement, IDO

January

v.1.0 Launch, team enlargement, begin implementation of Artist account

2023

2nd round of investment
